

PROJECT 2025 TOOLKIT

Help Spread The Word About This Extremist Agenda

Project 2025 is the far-right extremists' vision for America that will be implemented if Donald Trump wins a second presidential term in 2024. It is frighteningly anti-democratic and goes against what the vast majority of Americans want for our country — so we are making sure you have everything you need to talk to family and friends and spread the word about it.

Now is the time to start these conversations! Talk to your friends, bring it up at social gatherings, text your contacts and share on social media. Use the resources in this toolkit to reach everyone you know.
